

Beiträge zur Didaktik

**Sylvija Markic, Ingo Eilks,
David di Fuccia, Bernd Ralle (Eds.)**

**Issues of Heterogeneity and Cultural Diversity in
Science Education and Science Education Research**

A collection of invited papers inspired by
the 21st Symposium on Chemical and Science Education
held at the University of Dortmund, May 17-19, 2012

Shaker Verlag
Aachen 2012

Content

Issues of Heterogeneity and Cultural Diversity in Science Education and Science Education Research	
<i>Ingo Eilks, Silvija Markic, David di Fuccia and Bernd Ralle</i>	1
The Importance of Shared Understanding: Students’ Proficiency in Scientific Language	
<i>Joanne Broggy and George McClelland</i>	3
Special Language Competencies – Diagnosis and Individual Support	
<i>Hannah Busch and Bernd Ralle</i>	11
Content-Based Pedagogy in Culturally and Linguistically Diverse Classrooms	
<i>Jennifer Miller</i>	23
Science Teaching in Linguistically Diverse Classrooms	
<i>Linda Riebling</i>	33
Lesson Plans for Student Language Heterogeneity while Learning Science	
<i>Silvija Markic</i>	41
What is a Potential Scientist? Motivation to Learn Science – a Question of Culture or of Cognition?	
<i>Albert Zeyer</i>	53
Who is a ‘Real’ Science Teacher or Student? Gendered and Racialised Discourses of School Science	
<i>Eva Silfver</i>	61
On the Diversity of Humans and the Diversity of Cultures – Scientific and Educational Considerations	
<i>Ulrich Kattmann</i>	73
Cultural Influence on Attitudes towards Science	
<i>Funda Ornek</i>	83
Teaching Chemistry by Inquiry Methods in Arabic and Jewish Schools in Israel: Two Comparative Studies	
<i>Rachel Mamlok-Naaman, Yehudit Judy Dori and Avi Hofstein</i>	95
Teaching Chemistry in Brazil: One Country, Many Realities	
<i>Carmen Fernandez</i>	107
Standardisation Practices – a Mechanism to Eliminate Construct Heterogeneity in the Assessment of Attainment in Science Subjects	
<i>Jack Holbrook, Robiul Kabir Chowdhury, Ali Hasan, Obaidus Sattar and Saleh Atahar Khan</i>	121
Empowerment and Heterogeneity among Talented Pre-University Science Students in an Enriched Learning Environment	
<i>A.E. van der Valk and Albert Pilot</i>	133
Promoting the Acquisition of Chemical Knowledge by Structuring Content and Processes in Instructing Gifted Students	
<i>Michael A. Anton</i>	143

Increasing Diversity by Finding Ways to Teach Chemistry to the Visually Impaired <i>Cary Supalo and George M. Bodner</i>	155
Including Students with Special Needs in Inquiry-Based Science Education – What Can We Learn from Special Needs Education? <i>Simone Abels</i>	163
Opportunities and Challenges in Promoting Climate Change in a Comenius Network <i>John Oversby, Jane Fieldsend and Andrew Happle</i>	175
Enhancing Science Teaching for English Language Learner (ELL) Students Using Observation and Dialogue <i>Jennifer Park and Sonya N. Martin</i>	179
Chemistry Teachers’ Beliefs between Europe and the Arab World – an International Study <i>Siham Al-Amoush, Silvija Markic and Ingo Eilks</i>	185
Networking among Science and Technology Teachers: Experiences from the PROFILES Project in Turkey to Reduce Heterogeneity in Inquiry-Based Science Teaching and Learning <i>Bulent Cavas, Jack Holbrook, Yasemin Ozdem and Pinar Cavas</i>	189
Including Inquiry-based Learning into a Chemistry Class Concerning the Diversity Dimensions “Age” and “Language” <i>Sandra Puddu, Brigitte Koliander and Anja Lembens</i>	195
Following New Paths by Student Labs in Teaching Chemistry to Children with Special Needs <i>Barbara Schmitt-Sody and Andreas Kometz</i>	199
The 3-stage Learning Model as a Pedagogical Approach to Deal with Heterogeneity and Diversity Issues: African Educators’ Adaptation and its Emerging Issues <i>Sheila G. Oyao, Marmon A. Pagunsan, Miia Rannikmäe and Jack Holbrook</i>	203
The Experiment with the Burning Candle: What Pupils Remember One Year Later and What They Think After Seeing it Again <i>Ines Nuic, Meliha Zejnilagic-Hajric, Josip Slisko and Ines Javornicki</i>	207
Language Development Programs in Natural Science Lessons in Elementary School <i>Sabine Ahlborn-Gockel, Brigitta Kleffken and Rupert Scheuer</i>	211
Science Teacher Education by the Cross Regional TEMPUS-Project SALIS <i>Marika Kapanadze, Simon Janashia and Ingo Eilks</i>	215
On the Way to Scientific Inquiry – Supporting Hearing-Impaired Learners in Chemistry Classes <i>Adejoke Adesokan and Christiane S. Reiners</i>	219
The Elephant in the Room: Irish Science Teachers’ Perception of the Problems caused by the Language of Science <i>Marie Ryan and Peter E. Childs</i>	225
Reflections on Heterogeneity and Diversity in Science Education <i>Ingo Eilks, Avi Hofstein, John Oversby, Jack Holbrook, Silvija Markic, David Di Fuccia and Bernd Ralle</i>	229
