Zusammenfassung - Tagungsband ISBN 978-3-8322-7225-8 Proceedings of INDS'08

The "First International Workshop on Nonlinear Dynamics and Synchronization (INDS'08) is held on 18th/19th July 2008 at the Alpen-Adria-University Klagenfurt.

The main aim of INDS'08 is to bring together researchers, developers and practitioners from different horizons, to discuss the latest advances in the field of nonlinear dynamics and synchronization. INDS'08 serves as a forum to present current and future works as well as to exchange research ideas pertaining to various aspects in this field of nonlinear dynamic systems and synchronization. INDS'08 features contributed as well as invited papers and will include poster and demo sessions. In addition, eleven international renowned experts could be won to present exceptionally interesting insights and ideas in nonlinear dynamics and synchronization in keynotes and invited talks.

The large number of submitted publications from twenty different countries and the high quality of the accepted papers provides evidence of a promising future for this event, which is going to be organized annually at the Department of Smart System-Technologies of the Alpen-Adria University Klagenfurt.
